

# ISLAND<sup>®</sup>

Experience the boost a dedicated, wired router will bring to your network.

## WORK, GAME, AND VPN ALL AT ONCE? NO WORRIES.

Using enterprise-grade processor and memory, Island maintains incredible speed even while automatically filtering for security, logging traffic, and supplying VPN. Proprietary routing software means fast performance no matter what's going on in your home or small business.

## PAUSE THE INTERNET. LIMIT SCREEN TIME. ENJOY DINNER.

Schedule limits to screen time and pause the Internet for an online-free dinner! Our one-tap, pre-set umbrella filters or easy custom filters let you choose access to content per device or user. Parental controls have never been so simple.

## A STRESS-FREE SAFE ZONE

From the moment Island boots up, devices are automatically protected from malware by best-in-class filtering that occurs locally—not in the cloud—for steadfast privacy. No phishing, no hacking, no spyware...just the quiet sound of Island paradise.

## EXTRAORDINARY VISIBILITY FROM ANYWHERE

Open the app for a quick check that your network's running smoothly, or dive into the activity of any device, user, or group. You can access your Island(s) from anywhere in the world.

## NOT A TECHIE? NOT A PROBLEM.

Where other routers require mind-boggling configuration just to get started, Island transparently automates device discovery, a stateful firewall, security filters, DoH service, activity monitoring, and everything you need to be up and running in minutes.

# ISLAND<sup>®</sup>

Designed, assembled and supported in the USA

## PERFORMANCE

- 3.7 Gbps throughput
- 2,000,000 packets/sec
- 130,000 connections/sec

## HARDWARE

- CPU: quad-core 64-bit Intel<sup>®</sup> processor @ 1.8GHz
- 4 GB of dual-channel, ECC 72-bit RAM
- 64 GB of Flash storage
- Copy-on-write, ultra-high-integrity file system
- Four 10/100/1000 Gigabit Ethernet ports
- Internal full-range (90-270VAC) power supply
- Dimensions/weight: 5.965" d, 2.362" h, 420 grams/14.8 oz
- Certifications: FCC Class B, U/L, CE.
- Sustainable, recyclable plastic enclosure
- 2-year product warranty

## GENERAL

- Everything Island does is per device
- Supports up to 5,000 connected devices
- Collects and stores device activity for 1-3 years
- Exceptional VPN performance
- Both IPv4 and IPv6 enabled by default
- Supports up to 3 separate LANs
- Port forwarding by device name rather than IP address
- Uses DNS over HTTPS by default; also supports recursive DNS and DNSSEC
- DDNS
- DHCP reservations
- UPnP
- Supports multiple Internet connections, for redundancy or load-balancing
- Includes Wireguard VPN built-in with Island-proprietary extensions

## TARGET ENVIRONMENTS

- Residential, work-from-home
- Small-to-medium businesses
- IT pros managing multiple offices
- Property managers, Airbnb + VRBO hosts
- Any business with "Guest" WiFi access
